LinkedIn	linkedin.com/in/marcos-t-a58537221

Profile

Web Developer on the path to becoming a Full Stack Developer, equipped with a comprehensive curriculum that spans foundational principles to advanced technologies. My journey starts with mastering the essentials - HTML5, CSS3, and JavaScript. Progressing into the realm of frameworks, I specialize in React.js, crafting dynamic and responsive user interfaces. Venturing into the back-end landscape, I dive into Node.js and Express to build robust server-side applications, complemented by a solid understanding of databases like SQL Server. With a proficiency in Git and GitHub, I ensure seamless version control, while tools like Webpack optimize my development workflow. I am well-versed in deploying applications on platforms like Heroku and Netlify, ready to bring projects to life.

Education

May 2019 - Mar 2023	**Ingenieria de Software** **Universidad Estatal De Milagro, Milagro**

Skills

Javascript	Very good
React	Very good
Tailwind	Good

Courses

May 2023	**React Course** https://www.udemy.com/certificate/UC-e0482964-96ac-4715-abbe-f1dea1284b8e/
Jan 2024	**Node.js, Express & MongoDB** https://www.udemy.com/certificate/UC-274e5ffb-ac5a-403f-b3c0-f9ee384d2e7b/
